💼 EXPERIENCE & PROJECTS

Full-stack coding Bootcamp

📍 **Edgemony - Italy**
📅 **2023 – Today**

▷ I am currently enrolled in a bootcamp to acquire skills as a full-stack developer. The course is provided by Edgemony.

Skills acquired

▷ Competent in React.js, adept at building reusable components, managing state, and utilizing React hooks for efficient functional components.
▷ Experienced in JavaScript, proficient in ES6+ syntax and leveraging it to manipulate the DOM, handle asynchronous operations, and create interactive web applications.
▷ Proficient in Sass, using variables, mixins, and nested rules to write modular and maintainable CSS stylesheets.
▷ Knowledgeable in Node.js, capable of building server-side applications, RESTful APIs, and leveraging npm packages for backend development.
▷ Familiar with Vite, utilizing it as a modern build tool for fast development and optimized production builds.
▷ Experienced with Next.js, leveraging its capabilities for server-side rendering, static site generation, and routing in React applications.

🎓 EDUCATION

Ph.D. Archaeology

📍 **Trento University - Italy**
📅 **2019 – 2023**

Research project in Archaeozoological data from the middle Palaeolithic sites of Riparo Mochi and Riparo Tagliente.

M.Sc. Quaternary Archaeology

📍 **Ferrara University - Italy**
📅 **2015 – 2018**

Thesis on the exploitation of carnivorous mammals at the middle Palaeolithic site of Grotta di Fumane.
